There are two versions that, while following the same philosophy, have different prices:

The first (VHF-01W), includes the B0128 and has a magnetic closing system which adds to a very modern design a high qualitative perception.

The second (VHF-02W), uses a 50 ml bottle, the B2054, and with a simple pin closure is for those who want to test this market sector starting from a more competitive price without renouncing an exclusive look.

VHF-01W :

bottle B0128 transparent +
cap C18134/P with liner fitted +
