

News from Baralan
30/07/09

as you know one of our strength is the capability to personalize our standard items in all the possible ways.

For this purpose we are always looking to find innovative solutions.

Today I would like to introduce to you a “picture printing” which is possible to do on plastic articles, both on flat surfaces or at 360°.

Endless effects will help customers to realize any of their targets.

Suggested MOQ : 100.000 pcs per version.

Please ask our sales team for details or samples shown on this pictures.
