

## Baralan Introduces New Bottle Series for Nail Polish, Essential Oils and Makeup

*Ingrid 12 Super-Weight (SW) and Ingrid 15 bottles offer slim designs in two different sizes.*

**Baralan**, a consolidated player in primary packaging for the cosmetics and beauty industries, has introduced its **Ingrid series**, comprised of two uniquely designed glass bottles with slim proportions developed specifically for use with nail polish, essential oils and makeup.

With its lean and stylish design, the Ingrid series consists of two bottles in the same shape but with differing capacities, both with a GPI 13 neck size. The slightly larger Ingrid 15 is lighter and slender with a nominal capacity of 15ml. On the other hand, the Ingrid 12 Super-Weight (SW) has a slightly smaller capacity of 12ml, but features a thicker glass bottom, designed to make an elegant impact.

The Ingrid series can be combined with any neck 13 accessory, including different types of Baralan closures. This also includes the new Luo 13 overcap specifically designed to match the set's distinct style.

“Baralan continuously works to develop high-quality packaging with contemporary, eye-catching designs that capture the essence of beauty,” said Maurizio Ficcadenti, Global R&D Manager at Baralan. “The Ingrid series is a chic addition to our packaging solutions that is both practical and refined, offering brands increased options and the ability to enhance and diversify their product offerings.”
